

South Korea's Leading Brand
for Children's Growth

ICLETIME

Height Growth FGO

IcleTime Height Growth FGO is a health functional supplement for children's growth formulated with the breakthrough ingredient Fermented Oyster Extract (FGO), together with zinc, selenium, and vitamin B2. This balanced formulation not only supports healthy height growth but also helps maintain normal immune function, protect cells from oxidative stress, and boost energy metabolism throughout the critical growing years. IcleTime is made as a delicious, kid-friendly peach-flavored jelly, allowing children to enjoy their daily growth nutrients with ease—no fuss required. From ages 4 to 17, empower your child's growth during their golden stage! With IcleTime taken once daily, help unlock the growth potential they truly deserve.

| The Main Ingredient

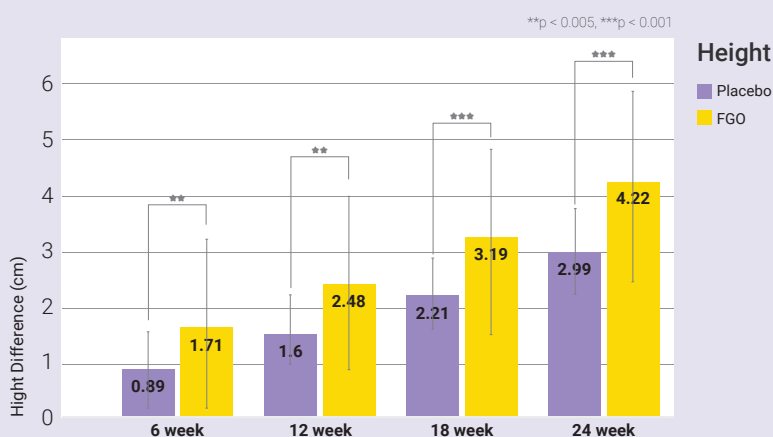

1. FGO – A Safe, Individually Approved Functional Ingredient Recognized by the MFDS for Supporting Height Growth

FGO is an individually approved health functional ingredient acknowledged by the **Ministry of Food and Drug Safety (MFDS)** of Korea for its functionality in *"supporting height growth in children."*

It also holds **patents in four major countries**, and its efficacy and safety have been **scientifically validated** through two human clinical trials and multiple academic studies.

Clinical Trial Results of Functional Ingredient Fermented Oyster Extract (FGO)

Confirmed a 4.22 cm Height Increase After 24 Weeks (Placebo Group: 2.99 cm)

At 24 weeks, FGO intake resulted in an average additional height growth of +1.23 cm compared to the placebo group.

Source: Rheu KM et al., Fisheries and Aquatic Sciences, 2025
Subjects: Children aged 6–11 years with height in the 3rd–25th percentile

Intake period & dosage: 24 weeks / FGO 500 mg per day

* Results from human studies may vary among individuals.

Improvements Confirmed in 5 Growth-Related Indicators

Overall
Body Growth

Height Growth

*Height Standard Deviation Score (SDS)

The standard deviation score (SDS) is calculated by comparing a child's height to the average height of children of the same age and sex, and dividing by the standard deviation.

Source: Integrative Medicine Research 10 (2021) 100691 | Subjects: Healthy children aged 6–11 years, total 100 (50 in the FGO group, 50 in the placebo group)
Intake period & dosage: 24 weeks, 500 mg/day of Fermented Oyster Extract (FGO) *Results from human studies may vary among individuals.

2. Zinc – Foundation for Immunity & Growth

During the growth period, zinc is essential for **immune function** and **cell development**.

It helps children stay active and grow with confidence. Keep your child fueled with zinc every day!

3. Selenium – Support for Healthy Cell Condition

As children grow, their cells are constantly working and changing.

Selenium helps **protect cell health**, supporting a strong foundation throughout the growth journey!

4. Vitamin B2 – Energy for an Active Day

Eating well is important but using those nutrients effectively is what matters!

Vitamin B2 plays a key role in **energy production**, helping kids stay energetic and active all day long!

Multivitamin BalanceTime

Usage Instructions	Take 1 stick(granule) once daily with water
Functional Benefits	[Vitamin A] Supports vision adaptation in dark environments, maintains skin and mucosal formation and function, crucial for epithelial cell growth and development [Vitamin B1] Necessary for carbohydrate and energy metabolism [Vitamin B2] Essential for energy production in the body [Vitamin B6] Important for protein and amino acid utilization, helps maintain normal homocysteine levels in the blood [Vitamin C] Assists in the formation and maintenance of connective tissue, enhances iron absorption, provides antioxidant action protecting cells from harmful oxygen radicals [Vitamin D] Aids in the absorption and utilization of calcium and phosphorus, contributes to bone formation and maintenance, helps reduce the risk of osteoporosis [Vitamin E] Acts as an antioxidant, protecting cells from harmful oxygen radicals [Niacin] Essential for energy production in the body [Pantothenic Acid] Necessary for the metabolism of fats, carbohydrates, and proteins and energy production [Folic Acid] Crucial for cell and blood production, normal development of the fetal neural tube, and maintaining normal homocysteine levels in the blood [Biotin] Necessary for the metabolism of fats, carbohydrates, and proteins and energy production [Zinc] Essential for normal immune function and cell division [Selenium] Protects cells from harmful oxygen radicals [Manganese] Necessary for bone formation, energy utilization, and protection of cells from harmful oxygen radicals [Molybdenum] Involved in the metabolism of carbohydrates, fats, and proteins within the body [Chromium] Vital for the activation of oxidation-reduction enzymes
Ingredients and Content	Vitamin A 210 µg RAE, Vitamin B1 0.36 mg, Vitamin B2 0.42 mg, Vitamin B6 0.45 mg, Vitamin C 30 mg, Vitamin D 3 µg, Vitamin E 3.3 mg α-TE, Niacin 4.5 mg, Pantothenic Acid 1.75 mg, Folic Acid 204 µg DFE, Biotin 9 µg, Zinc 2.55 mg, Selenium 16.5 µg, Manganese 0.9 mg, Molybdenum 7.5 µg, Chromium 9 µg
Ideal For	1. Children in a growth phase who need balanced nutrient intake 2. Children who prefer snacks over regular meals 3. Children who are picky eaters 4. Children with low stamina due to nutritional imbalance 5. Children who have difficulty swallowing capsules or tablets
Manufacturer	Kolmar BNH Co., Ltd.

Health Information

Causes of Growth Delay in Children

Growth delay in children can be caused by nutritional imbalance, insufficient sleep, and lack of physical activity.

Proper growth and development require adequate sleep, regular exercise, and balanced nutrient intake to support healthy progress.

Nutritional Imbalance

Insufficient sleep

Lack of physical activity

Probiotics with Lactobacillus and Zinc

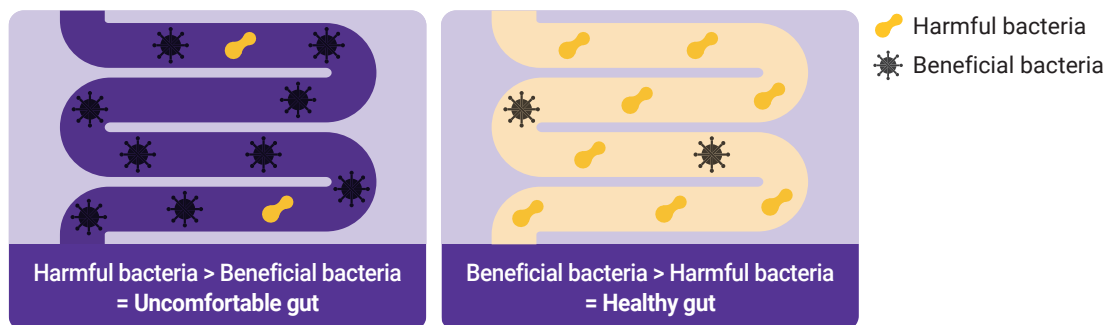

Usage Instructions	Take 1 stick(granule) once daily with water
Functional Benefits	[Probiotics] Promotes the growth of beneficial bacteria, inhibits harmful bacteria, supports smooth bowel movements, and aids in maintaining gut health. [Zinc] Essential for normal immune function and normal cell division. [Vitamin D] Necessary for the absorption and utilization of calcium and phosphorus, supports bone formation and maintenance, and helps reduce the risk of osteoporosis.
Ingredients and Content	Probiotics: $\geq 3,000,000,000$ (3 billion) CFU, Zinc 8.5 mg, Vitamin D 10 μg
Ideal For	1. Children who experience irregular bowel movements 2. Children with sensitive digestive systems 3. Children who want healthy and smooth bowel habits 4. Growing children who need normal growth and development 5. Children who need regular and comfortable bowel movements
Manufacturer	COSMAX NBT Co., Ltd.

Health Information

About 70% of the body's immune cells reside in the gut.

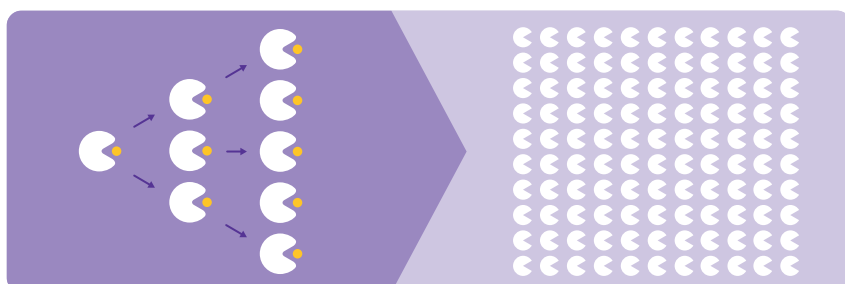

Beneficial probiotics and harmful bacteria coexist in the intestines.

A healthy gut requires more beneficial bacteria, which helps support gut health and overall wellness.

Source : Ministry of Food and Drug Safety (MFDS), "The intestine as a sensory organ: neural, endocrine, and immune responses" John B. Furness, Wolfgang A. A. Kunze, Nadine Clerc

When the gut environment is optimized,
a single probiotic strain can multiply into up to 250 billion in just one day!

Chewable Iron, Folic Acid & Vitamin C

Usage Instructions	Take 1 capsule once daily
Functional Benefits	[Vitamin C] Necessary for the formation and maintenance of connective tissues, for the absorption of iron, and for protecting cells from harmful oxygen through its antioxidant action. [Iron] Necessary for oxygen transport in the body and blood formation, and for energy production. [Folic Acid] Necessary for cell and blood formation, for the normal development of the fetal neural tube, and for maintaining normal homocysteine levels in the blood.
Ingredients and Content	Vitamin C 50 mg, Iron 9 mg, Folic Acid 220 µg DFE
Ideal For	1. Children aged 2 years or older who are prone to iron deficiency 2. Children in an active period of growth and development 3. Children who do not eat vegetables or fruits well due to unbalanced diet 4. Children in need of nutritional supplementation and robust growth development 5. Infants, children and teenagers with increased iron requirements
Manufacturer	Suheung Co., Ltd.

Health Information

Why is nutritional supplementation important for children?

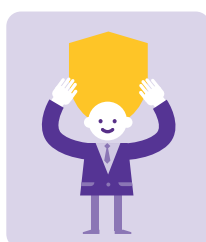

Nutrition has a profound impact on a child's **physical growth and emotional well-being**. Balanced eating habits and sufficient nutrient intake **enhance both cognitive and physical potential**, while strengthening the **immune system** and supporting **disease prevention**. Proper nutrition also plays a positive role in shaping a **healthy personality** and **social relationships** during growth. Therefore, **nutritional supplementation is especially important for children**, and iron is one of the key nutrients that is often lacking.

Cognitive development

Physical development

Strengthening the immune system

Supporting disease prevention

Shaping a healthy personality

Forming social relationships

Source : Ministry of Food and Drug Safety (MFDS), Korea – Child Immune Health

Why is iron important for growing children?

Due to rapid growth and development, children require a **greater amount of iron** than adults. Iron is stored not only in the blood, but also in the **muscles, bone marrow, and liver**. By ages 6–8, about **12% of the iron consumed** is stored in the bone marrow and liver.

EasyChew Kids rTG Omega-3

Usage Instructions	Take 3 gummies once daily
Functional Benefits	[EPA & DHA-containing Oil] May help reduce blood triglyceride levels, support healthy blood circulation, and improve memory function. May also help improve eye dryness and support overall eye health. [Vitamin E] Required for its antioxidant action that helps protect cells from harmful oxygen. [Zinc] Necessary for normal immune function and normal cell division.
Ingredients and Content	EPA + DHA 900 mg, Vitamin E 11 mg α-TE, Zinc 8.5 mg
Ideal For	1. Children in a growth phase who need EPA and DHA intake 2. Children at risk of nutritional imbalance due to picky eating 3. Children who have difficulty swallowing capsules or tablets 4. Children who frequently use digital devices 5. Children who need Omega-3, Vitamin D, and Zinc
Manufacturer	RP Bio Co., Ltd.

Health Information

EPA + DHA: Essential Brain Components Why Growing Children Must Take Them!

EPA and DHA are types of omega-3 fatty acids that are highly concentrated in the **brain and nervous system**, serving as key structural components. These fatty acids are **essential for physical and cognitive development**, yet the body has **limited ability to produce them on its own**, meaning they must be obtained primarily **through diet**.

Bone Health Calcium·Magnesium·Vitamin D·PGA

Usage Instructions	Take 2 tablets once daily with water
Functional Benefits	[Calcium] Necessary for the formation of bones and teeth, helps maintain normal nerve and muscle function, supports normal blood clotting, and helps reduce the risk of osteoporosis. [Magnesium] Needed for energy metabolism and helps maintain normal nerve and muscle function. [Vitamin D] Essential for the absorption and utilization of calcium and phosphorus, supports bone and teeth formation and maintenance, and helps reduce the risk of osteoporosis. [Poly-γ-glutamic Acid (γ-PGA)] May help promote calcium absorption in the body.
Ingredients and Content	Calcium 300 mg , Magnesium 150 mg, Vitamin D 20 µg, Poly-γ-glutamic acid 60 mg
Ideal For	1. Middle-aged adults experiencing decreased calcium absorption and weakened bones 2. Pregnant or breastfeeding women with increased calcium needs 3. Seniors more prone to weakened bones and teeth 4. Menopausal women concerned about declining bone density 5. Those who want to reduce the risk of osteoporosis
Manufacturer	Hanpoong Nature Pharm Co., Ltd.

Gut Health Probiotics Live Lactobacillus

Usage Instructions	Take 1 stick(granule) once daily with water
Functional Benefits	[Probiotics] Promotes the growth of beneficial bacteria, inhibits harmful bacteria, and supports smooth bowel movements, contributing to overall gut health.
Ingredients and Content	Probiotic Count: 1,000,000,000 (1 billion) CFU
Ideal For	1. For those who want a comfortable gut every day 2. For those experiencing discomfort from irregular bowel movements 3. For those who need better gut health due to poor eating habits 4. For pregnant and breastfeeding women with weakened intestinal activity 5. For middle-aged and elderly individuals with decreased beneficial gut bacteria
Manufacturer	COSMAX NBT Co., Ltd.

Circulation Health Supercritical rTG Omega-3

Usage Instructions	Take 2 capsules once daily with water
Functional Benefits	[EPA & DHA] May help improve blood triglyceride levels and support healthy blood circulation, May help improve dry eyes and support overall eye health [Vitamin E] Necessary for protecting cells from oxidative damage through its antioxidant action
Ingredients and Content	EPA + DHA 600 mg, Vitamin E 11 mg α-TE
Ideal For	1. For those who don't get enough omega-3 fatty acids from foods such as oily fish, seaweed, or nuts 2. For those looking for an omega-3 supplement with a high DHA ratio 3. For those who want a trustworthy, high-quality omega-3 product 4. For individuals with high triglyceride levels who need support for healthy blood circulation 5. For those seeking rTG-form omega-3 with superior absorption and bioavailability
Manufacturer	Hanpoong Nature Pharm Co., Ltd.

Liver Health Silymarin Milk Thistle Zinc

Usage Instructions	Take 1 tablet once daily with water
Functional Benefits	[Milk Thistle] May help support liver health. [Vitamin B1] Necessary for carbohydrate and energy metabolism. [Vitamin B2] Essential for energy production within the body. [Vitamin B6] Required for protein and amino acid utilisation and maintaining normal homocysteine levels in the blood. [Zinc] Important for normal immune function and normal cell division.
Ingredients and Content	Silymarin 130 mg, Vitamin B1 1.2 mg, Vitamin B2 1.4 mg, Vitamin B6 1.5 mg, Zinc 8.5 mg
Ideal For	1. Those experiencing liver fatigue from frequent dinners and late-night work 2. Those concerned about liver health due to irregular lifestyle habits 3. Those whose liver is burdened by excessive stress 4. Office workers who struggle to feel energized in the morning 5. Those feeling exhausted from parenting or household responsibilities
Manufacturer	Natural Way Co., Ltd

Eye Health Plus Lutein

Usage Instructions	Take 1 capsule once daily with water
Functional Benefits	[Lutein] Helps maintain macular pigment density, which may decline with aging, supporting overall eye health. [Vitamin A] Essential for dark adaptation in low-light conditions, supports the formation and maintenance of healthy skin and mucous membranes, and promotes the growth and development of epithelial cells. [Vitamin E] Provides antioxidant protection, safeguarding cells from harmful oxygen radicals.
Ingredients and Content	Lutein 20 mg, Vitamin A 700 µg RE, Vitamin E 11 mg α-TE
Ideal For	1. For those who often feel eye strain or blurred vision 2. For those who experience strong light sensitivity that makes outdoor activities uncomfortable 3. For those who frequently drive for long hours or at night 4. For those who want to maintain healthy eyesight 5. For those who spend long hours on smartphones or computers
Manufacturer	Natural Way Co., Ltd

Liposomal Vitamin C

Usage Instructions	Take 1 tablet once daily with water
Functional Benefits	[Vitamin C] Essential for the formation and maintenance of connective tissues, aids in iron absorption, and provides antioxidant protection, shielding cells from harmful oxygen radicals
Ingredients and Content	Vitamin C 500 mg
Ideal For	1. For those seeking Vitamin C with enhanced bioavailability through liposomal formulation 2. For those who need an extra boost of energy in their busy daily life 3. For those who want sufficient Vitamin C intake with just one tablet a day 4. For those who lack fruit and vegetable consumption in their diet 5. For those who want to protect their body from harmful active oxygen (oxidative stress)
Manufacturer	Novarex Co., Ltd.

Multivitamin Mineral Gummies

Usage Instructions	Take 2 gummies once a day
Functional Benefits	[Vitamin C] Necessary for the formation and maintenance of connective tissue, needed for iron absorption, and acts as an antioxidant to protect cells from harmful oxygen species. [Zinc] Necessary for normal immune function and normal cell division. [Vitamin E] Acts as an antioxidant to protect cells from harmful oxygen species. [Selenium] Necessary to protect cells from harmful oxygen species. [Niacin] Necessary for energy production in the body. [Molybdenum] Necessary for the activity of oxidation-reduction enzymes. [Manganese] Necessary for bone formation, energy utilization, and protecting cells from harmful oxygen species. [Vitamin B1] Necessary for carbohydrate and energy metabolism. [Vitamin B2] Necessary for energy production in the body. [Iodine] Necessary for thyroid hormone synthesis, energy production, and nervous system development. [Biotin] Necessary for fat, carbohydrate, and protein metabolism and energy production.
Ingredients and Content	Vitamin C 100 mg, Zinc 8.5 mg, Vitamin E 11 mg α-TE, Selenium 55 µg, Niacin 15 mg NE, Molybdenum 25 µg, Manganese 3 mg, Vitamin B1 1.2 mg, Vitamin B2 1.4 mg, Iodine 150 µg, Biotin 30 µg
Ideal For	1. For those who need nutritional support due to irregular eating habits 2. For busy individuals who want to conveniently maintain their basic health 3. For those who want to enjoy delicious nutrition without any burden 4. For families looking for a multivitamin suitable for all ages 5. For those who have difficulty swallowing capsules or tablets
Manufacturer	Suheung Healthcare Co., Ltd.

South Korea's Premier Brand for
Weight Management

slimway

SLIMWAY DIET

Slimway Diet is a back-to-basics weight management solution that focuses on reducing body fat. It contains 11 functional ingredients, including Aster spathulifolius Maxim Extract, an individually approved functional ingredient for body fat reduction. Aster spathulifolius Maxim is a native plant of Ulleungdo, Korea, known for its strong vitality staying green even in harsh winter conditions. Due to its very specific growing environment and limited production, Slimway is the only brand in Korea that uses this premium ingredient. To support the body throughout the dieting process, Slimway also includes probiotics for gut health, hyaluronic acid for skin hydration, and essential vitamins and minerals for antioxidant activity and energy metabolism—delivering a comprehensive formula for healthy body management.

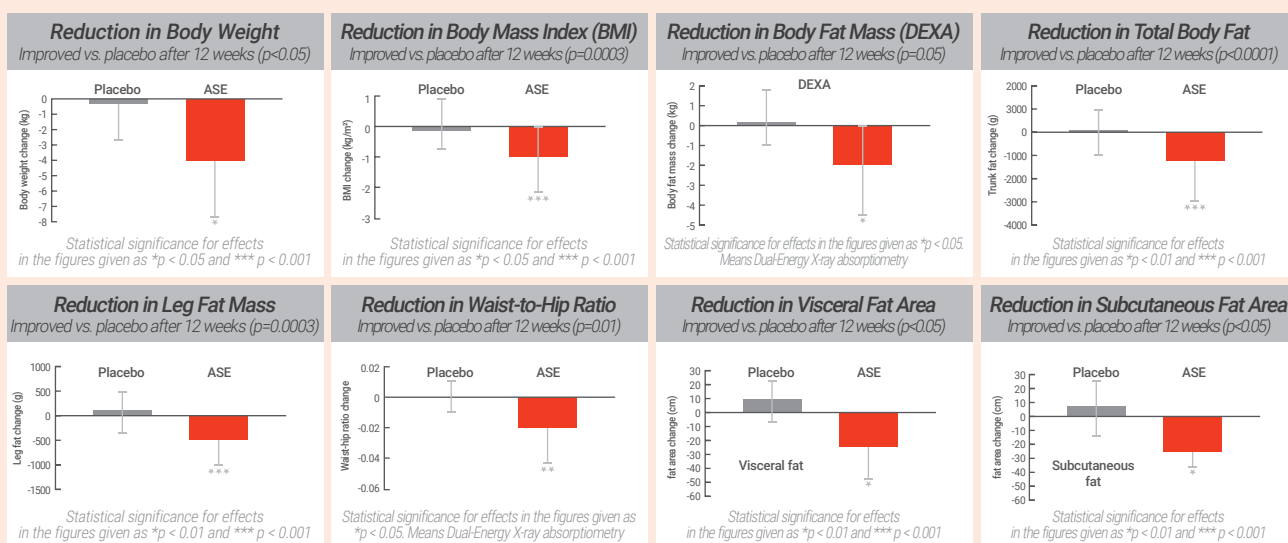

| The Main Ingredient

1. Aster spathulifolius Maxim Extract – A safe, individually approved functional ingredient recognized by the MFDS for its body fat reduction benefits

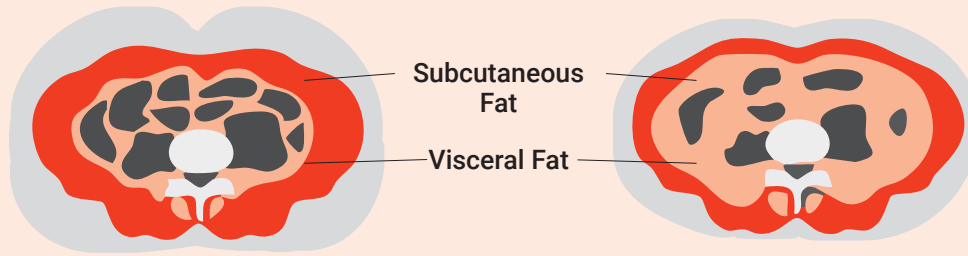

Aster spathulifolius Maxim Extract is an individually approved functional ingredient by the Ministry of Food and Drug Safety (MFDS) of Korea, recognized for its functionality in “reducing body fat.”

It also holds new technology certification from the Ministry of Agriculture, Food and Rural Affairs, as well as manufacturing process patents. With MUI Halal certification in Indonesia and three SCI-level research publications, its efficacy and safety have been scientifically validated as a premium grade ingredient.

Clinical Trial Results of Functional Ingredient Aster spathulifolius Maxim Extract

Source: Clinical study on Aster spathulifolius Maxim Extract, data on file | Subjects: 41 Korean adults aged 20 years or older with BMI 25–30 kg/m² (Placebo: 20 / Test: 21) | Intake period & dosage: 12 weeks, 700 mg/day of Aster spathulifolius Maxim Extract *Results from human studies may vary among individuals.

This image is provided to help illustrate the results of the human clinical study on *Aster spathulifolius* Maxim extract.

2. Probiotics for Smooth Bowel Movements!

Dieting can often lead to bloating and discomfort in the stomach. That's why the Slimway Diet is formulated with probiotics to help inhibit harmful bacteria in the gut and promote smooth bowel movements.

3. Hyaluronic Acid for Skin Hydration!

Even during a diet, it's essential to keep your skin nourished and hydrated. 'Slimway' contains hyaluronic acid, a powerful ingredient that helps maintain firm, moisturized skin while you shed those extra pounds.

4. Everything dieters need, in one formula

To help prevent nutritional imbalance during dieting, Slimway includes vitamins and minerals essential for antioxidant action and energy production.

Slimway Multi-Grain Black Sesame Protein Shake

Usage Instructions	Take 1 packet once daily
Functional Benefits	Protein supplement and meal replacement for weight management.
Ingredients and Content	Isolated soy protein, isolated whey protein, 17-grain powder, pea protein, black sesame, roasted black soybean powder, roasted black rice powder, black rice, cereal crunch, multivitamin-mineral mix
Ideal For	1. Those with a busy lifestyle who struggle to maintain balanced meals 2. Those who need energy and protein supplementation before or after exercise 3. Those who want to ensure they get all essential nutrients 4. Those who want a convenient, healthy meal solution while managing their diet 5. Those looking for a delicious protein product
Manufacturer	Sports Biotech Co., Ltd

Health Information

Maintaining adequate protein intake through a modern diet alone can be challenging. With just one convenient protein shake, you can support **post-workout recovery**, a quick meal on busy days, and **daily nutrition**—all at once

Protein is the main component of muscle

More than **40% of body muscle** is composed of protein, and continuous daily protein intake is required to help maintain muscle mass.

Source: Korean Nutrition Society, WHO Protein Report

Protein intake is essential for weight management

Protein helps you **stay full longer** than carbohydrates, reducing overeating and supporting healthy weight control.

Source: British Journal of Nutrition

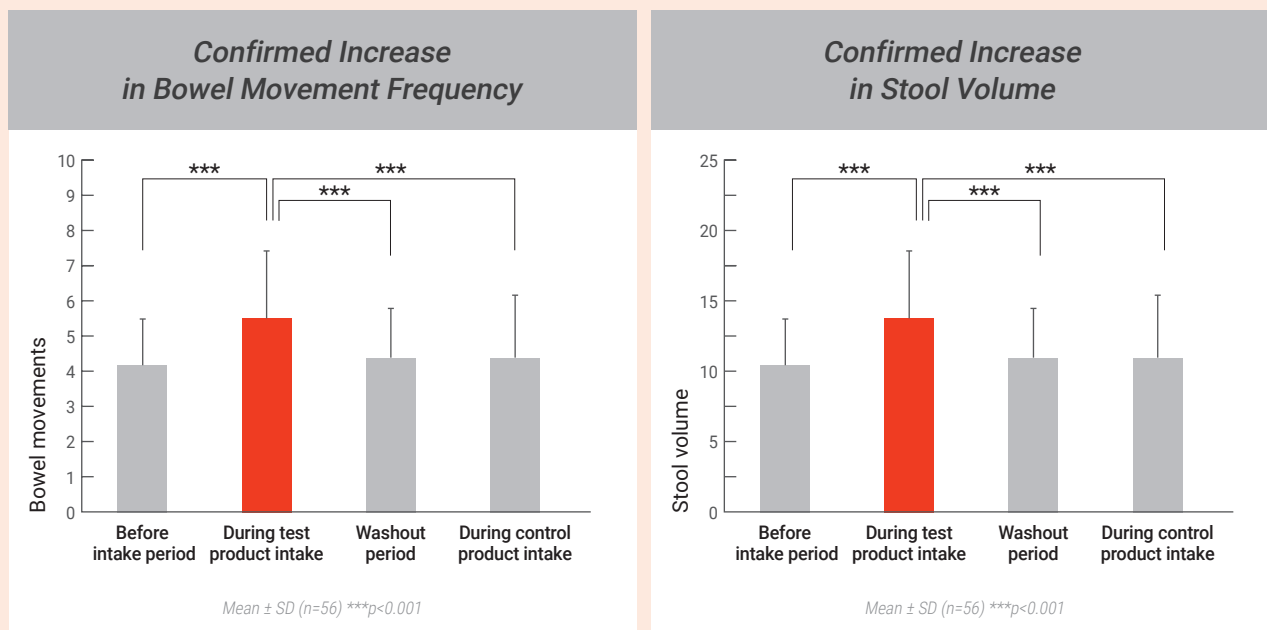

Feel lighter, live confidently! Slimway supports your wellness.

Slimway EasyGo Relief

Usage Instructions	Take 1 stick(liquid) once daily
Functional Benefits	[Indigestible Maltodextrin] May help reduce post-meal blood sugar rise, improve blood triglyceride levels, and support healthy bowel movements.
Ingredients and Content	Indigestible Maltodextrin 7,000 mg
Ideal For	1. Those who struggle with smooth bowel movements 2. Those with irregular eating habits and insufficient dietary fiber intake 3. Those concerned about abdominal heaviness or bloating 4. Those who need post-meal blood sugar care 5. Those who still feel discomfort or incomplete evacuation after bowel movements
Manufacturer	Wellfine Co., Ltd

Clinical Trial Results of Functional Ingredient Indigestible Maltodextrin

A total of 56 adults (average age 36.7 years) who experienced mild constipation symptoms consumed 5 g of indigestible maltodextrin daily for 2 weeks. As a result, both **bowel movement frequency** and **stool volume** increased compared to baseline

Source: Japanese Pharmacology & Therapeutics, Vol. 35, No. 4, pp.399-405 (2007)

Subjects: Adults with mild constipation symptoms (n=56, mean age 36.7 years)

Intake period & dosage: 2 weeks, 5 g/day of indigestible maltodextrin

*Results from human studies may vary among individuals.

Feel lighter, live confidently! Slimway supports your wellness.

Slimway Kamut Brand Wheat Fermented Enzyme

Usage Instructions	Take 1 stick(granule) once daily with water
Functional Benefits	Enzyme Food
Ingredients and Content	Pure Kamut sourced from Canada's pristine regions, 1,204,000 units of total enzyme activity per stick, 17 strains of mixed probiotics, and essential vitamins & minerals.

Manufacturer	Daewon Healthcare Co., Ltd.

Slimway NFC Juiced 100% Organic Bergamot Juice

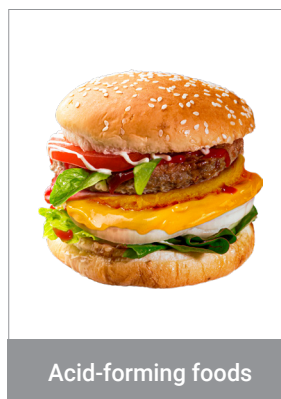

Usage Instructions	Take 1 stick(liquid) 1~3 times daily
Functional Benefits	Fruit and vegetable juice
Ingredients and Content	100% Organic Italian Bergamot, 100% NFC Cold-Pressed, Certified Organic Processed Food · HACCP Certified
Ideal For	1. For those interested in the Mediterranean diet 2. For those who often consume high-carb or greasy foods 3. For those concerned about a high-calorie eating pattern 4. For those who struggle to maintain a balanced diet 5. For those seeking a convenient and refreshing way to support body balance
Manufacturer	Healing Farm Co.,Ltd

Health Information

Citrus fruits are not acidic foods.

Although citrus fruits such as lemons and bergamot have a sour taste and are often misunderstood as acidic foods, they are actually classified as alkaline-forming foods because they leave alkaline minerals such as potassium and magnesium after metabolism. Modern diets tend to be high in acid-forming foods such as meat and refined carbohydrates, making balanced nutritional intake increasingly important. The body functions optimally when it maintains a slightly alkaline state with a pH range of approximately 7.35–7.45

*This explanation refers to general characteristics of the ingredient.

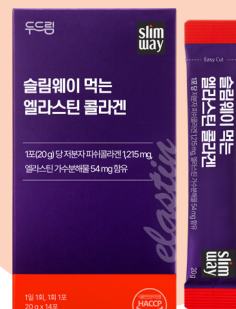

Acid-forming foods

Alkaline-forming foods

Slimway Elastin Collagen

Usage Instructions	Take 1 stick(jelly) once daily
Functional Benefits	General food
Ingredients and Content	<300 Da fast-absorbing fish collagen, elastin hydrolysate, hyaluronic acid, freeze-dried royal jelly, tomato extract, aloe vera gel powder, vitamins
Ideal For	1. For those who want total care from the inside out 2. For those who want to take elastin and collagen together 3. For those who want a collagen routine, especially on dry days 4. For those who want hydration, nutrition, and energy all in one 5. For those who need healthy skin support
Manufacturer	Healing Pharm Co., Ltd.

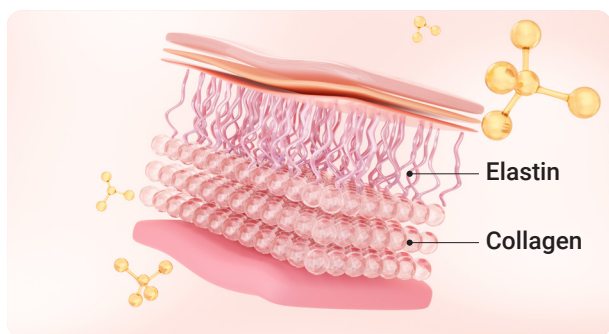

Health Information

What is Elastin?

Elastin is one of the three major components of the dermis and is an elastic protein that acts as a support structure, binding collagen within the dermal layer.

Source: Functional Cosmetic Science, 2016

*This information refers to the properties of the ingredient, not the product.

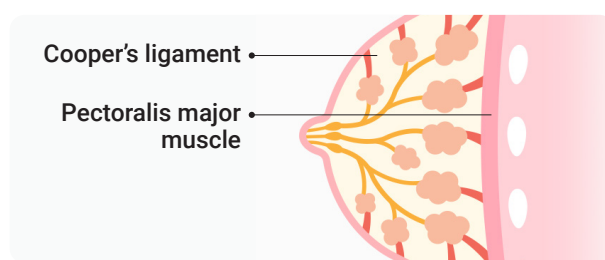

Main Component of Cooper's Ligament in the Breast

Cooper's ligaments are fibrous tissues that connect the skin of the breast to the underlying muscles. Elastin is a major component of these ligaments and helps support the shape of the breast.

Source: Grating-based X-ray phase-contrast mammography, 2016, Patrick J. Lynch, 2006

Why is Elastin Intake Important for Skin?

Collagen makes up about 80% of the skin's structure, while elastin is an essential protein that provides skin elasticity and supports collagen fibers – making elastin intake vital for maintaining firm and healthy skin.

South Korea's Premier Brand
for Menopausal Women

REPIERA

REPIERA

Repiera is a health functional food specifically designed for women going through menopause, offering comprehensive care for menopausal health, sleep quality, memory improvement, and blood circulation enhancement. This total care product combines 13 ingredients, including the innovative MS-10, Lactium, and Ginkgo Leaf Extract, to support women's health during menopause. Since its launch, Repiera has received an enthusiastic response from women in their 40s and 60s, earning remarkable achievements such as being awarded first place in the Excellent Brand of the Year and securing the top spot in the Korea Consumer Satisfaction Index. Repiera has also won a total of 9 awards in the women's menopause brand category.

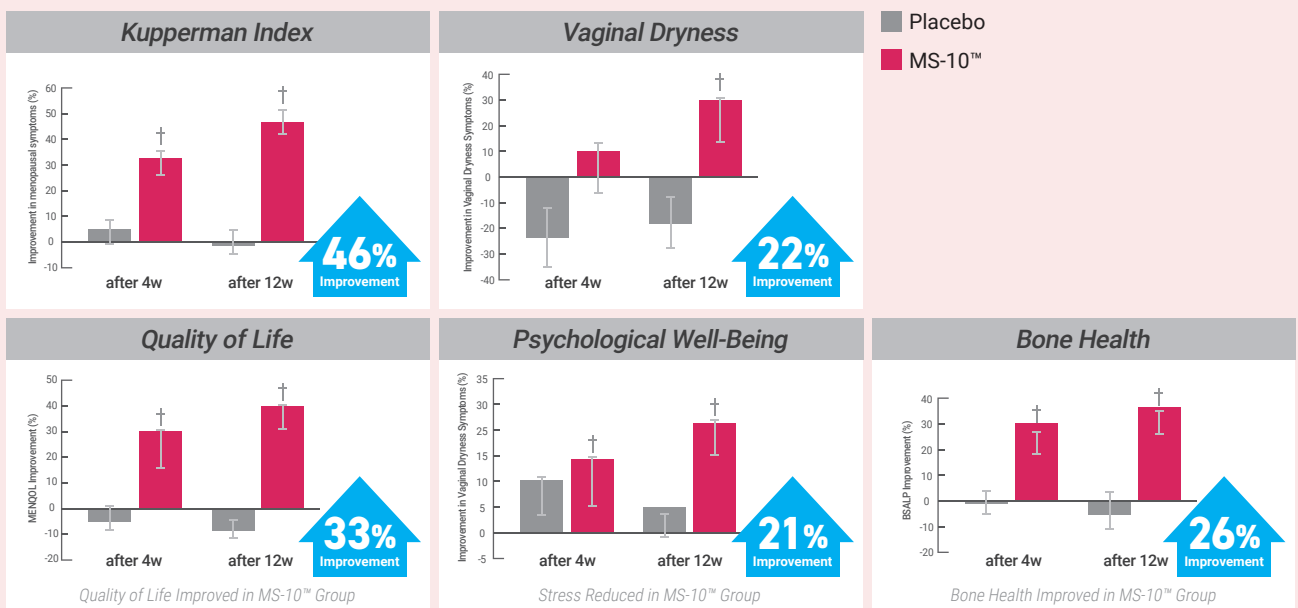

| The Main Ingredient

1. MS-10 – A Safe, Individually Approved Functional Ingredient Recognized for Menopausal Women's Health by MFDS

MS-10 is an individually approved health functional ingredient acknowledged by the Ministry of Food and Drug Safety (MFDS) of Korea for its functionality in "supporting menopausal women's health."

It is also registered as an NDI (New Dietary Ingredient) with the U.S. FDA, holds patents in two countries, and its efficacy and safety have been scientifically validated through human clinical trials and multiple academic studies.

Source: Clinical study on MS-10, data on file | Subjects: Korean women aged 45 years or older (KI score ≥ 15), total 71 participants
Intake period & dosage: 12 weeks, 300 mg/day of MS-10 *Results from human studies may vary among individuals.

2. Lactium® – Relaxation Support for Restful Sleep

During menopause, falling asleep or staying asleep can become more difficult. Lactium® helps ease tension and promotes a **calm, comfortable sleep environment**. Restore balance overnight, and wake up refreshed for a better day ahead!

3. Ginkgo Leaf Extract – Strength for Memory & Blood Circulation

As women age, brain and vascular health become increasingly important. Ginkgo Leaf Extract supports **healthy blood circulation and memory function**, helping you stay active and energized—mentally and physically. Make the smart choice for a clearer, more vibrant day!

4. The Most Comprehensive Functional Formula for Menopausal Women

Designed to deliver all the essential functionalities and foundational nutrients menopausal women need. In addition to the key functional ingredients — MS-10, Lactium®, and Ginkgo Leaf Extract it contains selenium for antioxidant protection, vitamin D for bone health, pantothenic acid, biotin, vitamin B1, and niacin for energy production and nutrient metabolism, as well as folate for cell and blood formation and vitamin B12 for folate metabolism.

A total-care formula packed into a single daily stick, supporting the complete wellness balance of menopausal women.
